

# Trade Show Robots

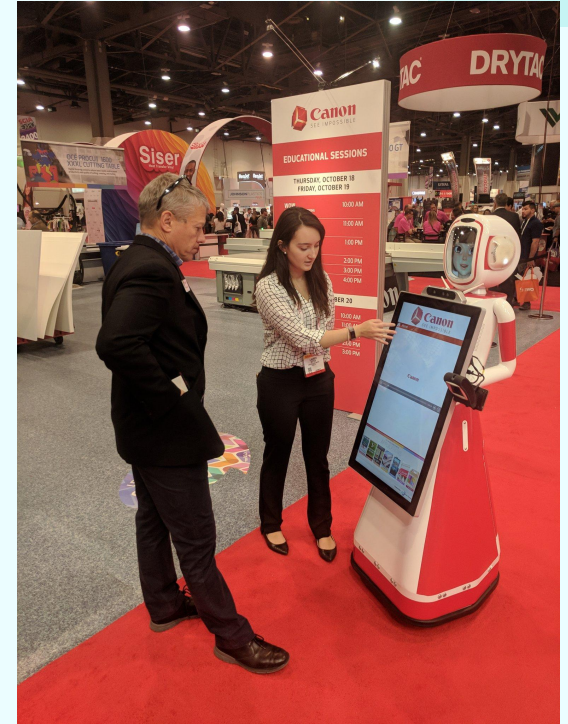

# Furo-D ROBOT

- Position your company as innovative with the Furo-D Robot!
- The Furo-D is a popular robot used in many trade shows, conferences, and events to attract attendees and engage with them in a new exciting way
- It's 5'3" with a 32" touchscreen that is completely branded for your company
- It can move around via joystick and can talk to attendees

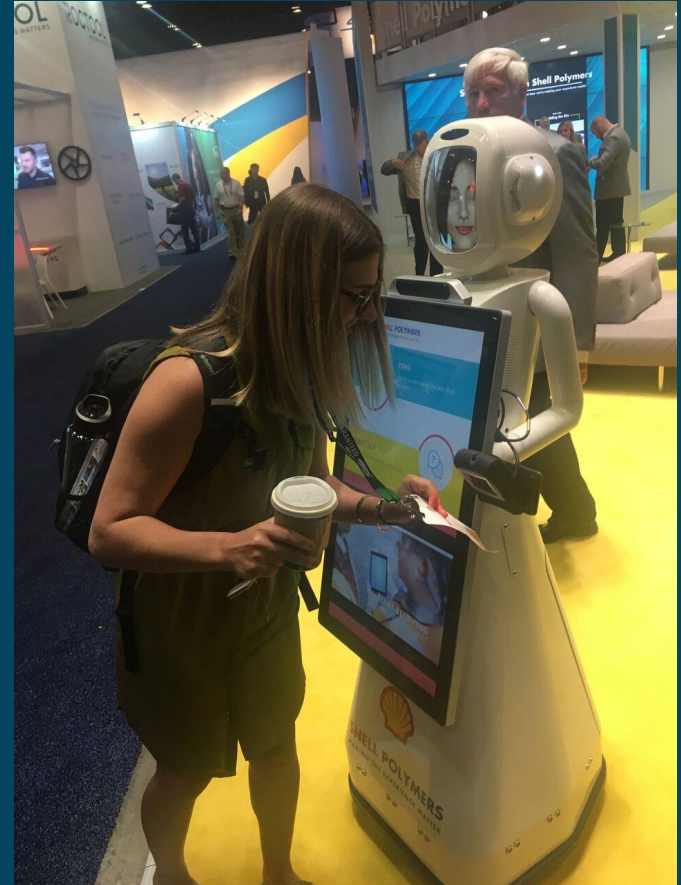

# ROBOT HANDLER

- Each rental includes a robot handler to come set-up the robot and assist during the event
- The handler will move the robot around the event via joystick and trigger phrases that your company comes up with for the robot to say
- This employee encourages people to use the robot and makes sure that everything runs smoothly and successfully

# LEADS

- Our robots can scan leads at trade show, turning attendees into sales opportunities!
- After scanning an attendee's badge, the robot can say the attendee's name and welcome them to the booth using your company name
- The robot can also collect email addresses, survey data, and quiz results
- We provide you with all the lead information at the end of the show

# INFORMATION

- We can put your slideshows, pictures, videos, brochures, website, applications, and more on the robot's screen
- This is a great way to display your company's information while keeping someone's attention
- The robot can also answer questions, give keynote speeches, and speak multiple languages

# ENTERTAINMENT FEATURES

- The robots have tons of entertainment options for fun at events! Some options include:
  - Prize wheels
  - Slot machine
  - Take-a-photo (which we can add a branded frame to and email to attendees)
  - Robot Avatar (put your face where the robot's face is)
  - Robot Dance
  - Matching game
  - Quizzes/surveys
  - And more!

Check out the line! When the robot gives away prizes, expect steady traffic at your booth!

# CUSTOMIZABLE

The robot's screen isn't the only option to customize the robot! We can add your logo or a design of your choice to the bottom of the robot. You can also pick a robot avatar out of the above options or we can create a unique one for your company. Don't want an all-white robot? We can add accent colors to the robot's body!

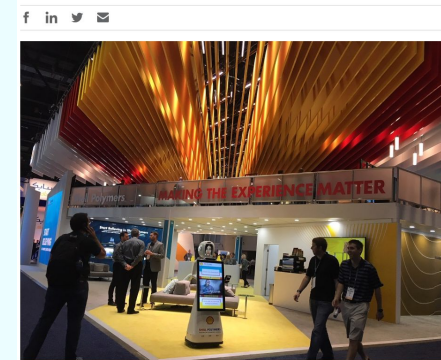

# PR

- The robots always get lots of media attention at trade shows and events
- They have appeared on the news, in articles, large social media accounts, etc.
- People take pictures of the robots and share them on social media and, with your branding on the robot, show that they were at your booth

NPE2018: The coolest thing we saw on day 5

# FAQ

- **How long does the battery run?** The robot can run on one battery for a full show day, but the employee handler will have a backup battery ready to switch out if necessary
- **Does it require wifi?** We can create the app so that it does not, although wifi is required for certain features
- **How much lead time is required to order one for my event?** Depending on customization we can have a very quick turnaround for events, so don't hesitate to find out if we can get you one in time
- **Can my design team create the screens?** They sure can! We will provide your team with the specs to create your robot screens
- **Can I rent a robot anywhere in the US?** Yes!
